With its calm curves and welcoming stance, the Aska Lounge Chair draws you in. Crafted in solid wood and fully upholstered, it feels familiar at first glance - yet reveals subtle details that invite a closer look.

Mushroom Side Tables in walnut

Kulin Coffee Table in oak

Aska was inspired by a piece from my childhood - a chair once made by ŠIPAD. I wanted to reinterpret that memory in my own way - through the lens of GAZZDA.

It blends craftsmanship and technology, with natural materials, an emphasis on wood, and visible joinery that serves both function and form. The design plays with contrast: a thick, grounded seat paired with a light, slender frame - preserving the weight I remembered, but framing it with lightness.

Its name is a tribute to Nobel Prize-winning author Ivo Andrić and his story about the lamb Aska, whose dance was so powerful it disarmed the wolf - a reminder that beauty and art can move even the most insensitive beings.

FLIP CHAIR

By Mustafa Čohadžić

The Flip Chair stands out with its distinctive armrest that flips into place, giving the chair both its name and visual character. Made from solid wood with a smooth lacquered finish, it's durable, easy to care for, and available in a range of modern colours.

The idea was to create a chair with an industrial character - minimal in design, but rich in industrial logic. Its defining feature is the armrest, which is flipped from the backrest. The construction is deliberately balanced, made from a single profile of uniform dimensions to enable more efficient production.

The seat is gently curved for ergonomic comfort, giving the chair a calm and restrained presence. Overall, the design is clean, rational, and understated, with balanced proportions and soft curves limited to the seat and backrest - just enough to ensure comfort.

KULIN COFFEE TABLE

By Berin Spahić

The Kulin Coffee Table brings timeless elegance to your living space. Crafted from premium solid wood with a subtle high-end finish, it offers a refined yet understated presence.

Aska Lounge Chair in oak

The concept was to create a piece that acts as an emotional and spatial anchor - around which daily life unfolds and the interior naturally arranges itself.

With a bold, monumental presence, Kulin emphasizes form and scale. It consists of only two elements: the tabletop and the legs, between which the entire dialogue of form takes place. The legs are positioned not at the corners, but at the center of each side - further highlighted by the super elliptical shape of the top. Their upward extension above the surface recalls the keystone of a medieval arch, reinforcing the table's sculptural and architectural character.

The name is a tribute to one of Bosnia's earliest medieval rulers - Ban Kulin - whose legacy lives on in the saying: "Since the time of Ban Kulin and the good old days."

FINA SIDEBOARD & LOWBOARD

By Mustafa Čohadžić

The thin lines of each Fina unit give it an elegant, minimalistic look, brought to life by the repeating contrast between solid wood, steel and linoleum. This series of multi-purpose storage units comes in different sizes, fitted with doors, shelves and drawers. Each design breathes modernism and warmth.
